## Introduction

The Office of Student Financial Assistance (OSFA) is an office within the Maryland Higher Education Commission (MHEC) responsible for the administration of 28 State financial assistance programs. These programs are designed to improve access to higher education for needy students; encourage students to major in areas of great economic need to the State, such as teaching and nursing; and encourage Maryland's brightest students to attend college in the State. Maryland students use the assistance from these programs at community colleges, independent colleges and universities, private career schools, and the State's public four-year campuses. Programs are classified in one of five categories:

- Need-based Aid Programs
- Legislative Programs
- Merit-based Programs
- Career and Occupational Programs
- Unique Population Programs

Many of our State grants and scholarships combine aspects of several of these categories in that they may require a specific grade point average, require a service obligation and have income limitations. However, programs are classified by the predominant awarding criteria and program goal. With few exceptions Maryland residency is required for all State financial assistance and students are required to attend a college in Maryland. The majority of State financial assistance programs are aimed at fulltime undergraduate students, with only a small percentage of the funds going to part-time and graduate students. Descriptions of each financial assistance program by category can be found in Appendix I.

In addition to administering State financial assistance programs, OSFA has been charged with expanding its outreach activities to increase college awareness and access with particular emphasis on the State's lowest income population. OSFA, in collaboration with other organizations in the State, coordinates and conducts college awareness and outreach activities to ensure that students and parents are well informed of State financial assistance opportunities and that students have college preparation information. This is critical to ensuring that every Maryland citizen has access to higher education and can contribute to the further development of Maryland's economic health and vitality.

## Summary of State Financial Assistance Programs and Awards for FY 2006

In FY 2006, 52,904 financial aid awards were made totaling $\$ 93.7$ million. The average award was $\$ 1,773$. A breakdown of program expenditures, number of awards issued, and average award for each program can be found in Table 1 below. Program expenditures are sub-totaled by category.

Table 1. State Financial Aid Expenditures
Number of Awards and Average Award: FY 2006

| Program |  | Dollars | Number of Awards | Average Award |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Need-Based Aid |  |  |  |  |  |
| Guaranteed Access Grant |  | 10,740,516 | 1,204 | \$ | 8,921 |
| Educational Assistance Grant |  | 48,519,829 | 24,506 |  | 1,980 |
| Campus-Based Educational Assistance Grant |  | 2,935,154 | 2,019 |  | 1,454 |
| Part-Time Grant |  | 4,670,007 | 7,309 |  | 639 |
| Graduate and Professional |  | 687,014 | 368 |  | 1,867 |
| Sub-Total |  | 67,552,520 | 35,406 | \$ | 1,908 |
| Legislative Aid |  |  |  |  |  |
| Senatorial | \$ | 5,675,400 | 6,567 | \$ | 864 |
| Delegate |  | 4,617,275 | 5,145 |  | 897 |
| Sub-Total | \$ | 10,292,675 | 11,712 | \$ | 879 |
| Merit-Based Aid |  |  |  |  |  |
| Distinguished Scholar | \$ | 3,734,250 | 1,271 | \$ | 2,938 |
| Distinguished Scholar - Teacher |  | 85,500 | 29 |  | 2,948 |
| Distinguished Scholar - Community College Transfer |  | 147,000 | 51 |  | 2,882 |
| Sub-Total | \$ | 3,966,750 | 1,351 | \$ | 2,936 |
| Career/Occupational Aid |  |  |  |  |  |
| Child Care Provider | \$ | 62,250 | 56 | \$ | 1,112 |
| Christa McAuliffe Teacher |  | 680,081 | 64 |  | 10,626 |
| Developmental Disabilities and Mental Health |  | 923,741 | 457 |  | 2,021 |
| HOPE Scholarship |  | 820,500 | 284 |  | 2,889 |
| HOPE Scholarship - Science and Technology |  | 676,500 | 239 |  | 2,831 |
| HOPE Scholarship - Teacher |  | 3,179,750 | 690 |  | 4,608 |
| Loan Assistance Repayment Program |  | 1,478,293 | 671 |  | 2,203 |
| Loan Assistance Repayment Program - Dent Care |  | 291,353 | 9 |  | 32,373 |
| Loan Assistance Repayment Program - PCS |  | 507,933 | 20 |  | 25,397 |
| Nursing Scholarship |  | 1,697,416 | 648 |  | 2,619 |
| Physical and Occupational Therapy |  | 53,000 | 28 |  | 1,893 |
| Reimbursement of Firemen |  | 340,630 | 147 |  | 2,317 |
| William Donald Schaefer Scholarship |  | 79,697 | 10 |  | 7,970 |
| Sub-Total | \$ | 10,791,144 | 3,323 | \$ | 3,247 |
| Unique Populations Aid |  |  |  |  |  |
| Tolbert | \$ | 279,900 | 932 | \$ | 300 |
| Conroy Memorial |  | 452,266 | 89 |  | 5,082 |
| Teach for the Health of It |  | 437,736 | 91 |  | 4,810 |
| Sub-Total | \$ | 1,169,902 | 1,112 | \$ | 1,052 |
| Grand Total |  | 93,772,991 | 52,904 | \$ | 1,773 |

Exhibits 1 and 2 provide the distribution of program funds by category and higher education segment. Over 70\% of the funds expended for State financial assistance in fiscal year 2006 were for need-based aid programs. Almost two-thirds of program funding was awarded to students enrolled at a four-year public institution.

## Exhibit 1. Distribution of State Financial Aid Funds by Category FY 2006

Exhibit 2. Distribution of State Financial Aid Funding by Higher Education Segment FY 2006

Exhibits 3 and 4 provide the distribution of program recipients by category and higher education segment. Sixty-seven percent of program recipients received a need-based grant. Twenty-two percent received a legislative scholarship and $6 \%$ a career and occupational scholarship. Just over half of the recipients of State financial assistance attended four-year public institutions.

## Summary of College Awareness and Outreach Activities

The Commission has charged the Office of Student Financial Assistance (OSFA) with expanding its outreach activities to increase college awareness and access with particular emphasis on the State's lowest income population. To achieve its outreach goal and objective, OSFA coordinates and conducts college awareness and outreach activities to ensure that students and parents are well informed of State financial assistance opportunities and that students have college preparation information. Several outreach efforts have been employed using a variety of means including workshops and presentations, publications, direct mail and web-based initiatives. These efforts are in collaboration with high schools, community groups, colleges and universities, faith-based organizations, and the media.

## Workshops and Presentations

OSFA participates in numerous college night programs and financial aid workshops, averaging 180 presentations per year. OSFA has continued to partner with both community colleges and public and independent four-year institutions to provide financial aid nights at high schools throughout Maryland. OSFA provided the financial aid directors at the colleges with a copy of its financial aid presentation and the directors incorporated this presentation into the one that they would normally present at similar events. This collaboration continues to be quite successful and has enabled OSFA to honor speaking engagements for which it may not have been able to send staff. In addition, the more comprehensive presentation that a financial aid officer can provide offers the audience a more complete picture of the financial aid process. Approximately 45 percent of these events are in counties where 40 percent or more of the students qualify for the free or reduced lunch program. The number of outreach presentations has remained consistent over the last few years. (Exhibit 5)

Financial aid workshops and presentations are held in many different venues such as guidance counselor workshops, financial aid nights at high schools, college fairs, college open house programs, and legislative workshops. The number of financial aid nights held at high schools across the State has increased significantly so that now over half of the workshops and presentations held in FY 2006 were at these venues (Exhibit 6). The number of special programs and faith-based presentations has remained relatively stable at $12 \%$ each with a great emphasis being placed on organizations assisting students in economically disadvantaged areas. Additionally, OSFA is now providing training for organizations such as College Bound, private career schools, as well as foster care parents, social workers, and caseworkers.

## Publications

Working together, OSFA and MHEC’s Office of Grants have expanded outreach to include the production and distribution of materials to assist middle school students, the Hispanic population, and more targeted pieces to low-income students. Outside grant funding from USA Funds has been received to produce the Student Guide to Higher Education and Financial Aid in Maryland in Spanish and the new junior calendar, "Step Up For College", an academic calendar for high school juniors. The calendar, which covers the final months of the junior year and all of the months of the students' senior year in high school, provides month-by-month information about what students need to do to prepare for college, SAT and ACT test information, when to write their college essays, as well as financial aid information. The calendar was very well received by the students, parents and counselors. Funds are being provided by USA Funds in FY 2007 to continue the junior calendar and produce other pieces in Spanish such as the College 411 brochure, a piece for parents of middle school students, a piece for $6^{\text {th }}$ and $7^{\text {th }}$ graders, and the one-page publications for specific student populations. Working with the Department of Human Resources, OSFA continued to develop two one-page publications designed for foster care students and the Guaranteed Access Grant (GA) population, as well as information on its legislative scholarship programs. OSFA and the Grants Office will continue to work together to produce more age appropriate college awareness materials, and explore other sources of funding.

Publications being produced for distribution to middle and high schools, colleges and universities, and students are listed below with a brief description.

Student Guide to Higher Education and Financial Aid in Maryland in English and Spanish provides students with information about almost 60 colleges and universities in Maryland, scholarships and grants to help students pay for college, programs that offer tuition assistance or scholarships, and private career schools. This publication is distributed to high school guidance counselors annually for distribution to all high school seniors. The guide is also distributed to high school early intervention programs, public libraries, colleges and universities, private career schools, and out-of-state high schools that have a significant enrollment of Maryland residents.

College 411 a quick guide to State financial aid programs. The brochure is used at college fairs throughout the State and during financial aid workshops.

An Academic Year: Preparing for College developed for high school seniors as a month by month guide of activities for college preparation and a guide for choosing the best school for their future goals.

What's Next After High School is designed to provide $8^{\text {th }}$ and $9^{\text {th }}$ grade students with information on preparing for college, from taking the right classes to participating in certain activities in $9^{\text {th }}$ through $12^{\text {th }}$ grade. This will be distributed every other year to reach two grades at a time. It was distributed in fall 2004 to $8^{\text {th }}$ and $9^{\text {th }}$ graders and will be distributed again in spring 2007.

Preparing Your Child For College, the companion piece to What's Next After High School, is designed to inform parents of the importance of assisting children in furthering their education, graduation requirements, and how to pay for college. This publication will be distributed in spring 2007 in Spanish.

How Far Do You Want To Go? is designed to inform $6^{\text {th }}$ and $7^{\text {th }}$ graders how stay on track to succeed in high school and enter college. In addition, it opens their eyes to the benefits of going to college and helps them understand that college is possible. This will be distributed every other year to reach two grades at a time. It was distributed in winter 2005 to $6^{\text {th }}$ and $7^{\text {th }}$ graders and will be distributed again in spring 2007.

Guaranteed Access Grant/Educational Assistance Grant is a one-page brochure that gives quick information on the State's two largest need-based financial aid programs. One side provides information on the Guaranteed Access Grant, which is for the State's neediest students. The other side has information on the Educational Assistance Grant, the largest need-based aid program.

Foster Care Tuition Waiver is a one-page brochure that is designed for outreach to children who have resided in a foster care home in Maryland. This piece was created to provide information to social workers and potential recipients about the scholarship's existence.

Senatorial and Delegate Scholarships - On the reverse side of the Foster Care piece is information on the Senatorial and Delegate Scholarship programs.

Step Up for College - This sixteen-month calendar, beginning in April of a student's junior year and going through the senior year, was designed and distributed to all Maryland high school juniors in March 2006. OSFA will again produce the calendar and will distribute it to high school juniors in March 2007.

## Direct Mail

To better coordinate the college awareness and outreach efforts employed by MHEC, College Preparation/State Financial Assistance Outreach Kits were developed and distributed to all public and private high school guidance counselors, early intervention sites, legislators and other interested organizations in December 2002. Based on outreach kit evaluation forms returned by the counselors, the kit was very well received. Updates of materials continue to be produced and provided annually.

As in past years, the Student Guide to Higher Education and Financial Aid in Maryland, program applications, and program overview brochures were distributed to all colleges and universities, public and private high schools, public special schools, early intervention sites, legislators, and requesting organizations. In addition, thousands of application packets were mailed to individuals requesting information. Enclosed in the application packets are the materials listed above, a program contact sheet with phone numbers and email addresses for each program administrator, and a sheet listing all programs with applications on MHEC's website.

## Web-based Initiatives

A number of web-based initiatives have been implemented. Three years ago MHEC's website was redesigned to make it more user-friendly for students, parents, and counselors to find information about financial assistance, and additional user-friendly modifications were put in place this past year. In the "Students, Parents, and Counselors" section, you will find:

- applications in PDF format, conditions of award statements for renewal awards, information and descriptions of all State financial assistance programs available to Maryland residents;
- an "On-Line Scholarship Search" that will enable a student to determine for which State financial assistance program he/she may be eligible by answering a series of questions on enrollment status, major, and willingness to fulfill a service obligation, among others;
- links to other financial aid sites and colleges and universities in the state;
- "Student Inquiry" that allows students to check the status of applications and awards on-line from initial application through verification; students can also print a copy of their award letter.
- Career Training information;
- "Advisor Tools", which gives high school guidance counselors, financial aid officers, legislators and others access to pertinent information. Guidance counselors can click on "Advisor Tools" to gain access to a frequently asked questions sheet on State financial aid programs, program applications, request a financial aid presentation at their school, or find a calculation sheet to assist with calculating Grade Point Averages (GPA) for the Distinguished Scholar Program. Financial aid officers can access the Financial Aid Officer’s Manual to assist with processing awards, program applications, and find the status of a student's award. They can also access the Student Outreach Kit, which contains our most recent publications and materials. We have recently added links to the "Advisor Tools" section for Legislators. In this new section, legislators can now access program operational manuals, audit reports, and a participation agreement and instructions to receive data from OSFA on a CD-Rom;
- "Money For College" schedule of financial aid outreach events being held around the State; and,
- A link to the Student Guide to Higher Education and Financial Aid in Maryland in Spanish.

By clicking on "Student Financial Assistance", in addition to the information above, students will have access to:

- "Paying for College" information;
- "Apply for Financial Aid", which gives the steps a student should follow to apply for federal and State aid; and,
- "College Aid Calculator", which is used to estimate the Expected Family Contribution (EFC) for both public and private colleges, print an EFC report, and compute education loan payments for Stafford, PLUS, Perkins, and other loan programs. It will also calculate an estimated Educational Assistance Grant for Maryland residents who plan to attend a Maryland institution.

The changes to the website have been very well received and there has been an increase in the number of applications printed from the website and submitted. In FY 2003, OSFA received $42 \%$ of its applications from individuals printing them from the website. In FY 2005, 84\% of the applications submitted were printed from the website. The number of applications being printed out from our website remained consistent in FY 2006 at $84 \%$. On-line award acceptance is being tested and will be implemented in the near future. OSFA has also made strides in increasing efficiencies between our office and the financial aid offices at the schools by introducing an automated billing roster process.

## Funding Initiatives in FY 2006

In FY 2006, the Part-Time Grant Program received an increase of over $\$ 2.6$ million bringing the total appropriation for the program to $\$ 4.7$ million. The Graduate and Professional Scholarship Program had an increase of \$500,000 in funding from \$187,312 to \$687,312 in FY 2006.

The EEA program is the State's largest need-based program and has three components: the Educational Assistance Grant (EAG), Campus-based EAG, and the Guaranteed Access Grant (GAG). The EAG is targeted to low- to moderate-income families and is based on financial need. The maximum amount of the EAG for 2005-2006 is $\$ 2,700$. The Campus-Based EAG is decentralized and provides assistance to needy students who decide late in the financial aid process to attend school. Students must be Pell eligible and the maximum award is $\$ 2,700$. The GAG is for very low-income students and covers $100 \%$ of the student need up to a maximum of $\$ 13,800$ for academic year 20052006.

An increase of $\$ 10.2$ million in funding for the Educational Excellence Awards (EEA) program in FY 2006 enabled OSFA to accomplish the following when making Educational Assistance (EA) Grant awards:

1) Award almost 37,000 renewal and new GA Grants and EA Grants for academic year 20052006, up from approximately 33,700 in the prior year;
2) Increase the number of new Educational Assistance Grants by almost 4,000 awards;
3) Increase the standard allowances used when calculating EA and GA awards for both students living with parents ( $\$ 2,800$ to $\$ 3,200$ ) and for students living off-campus ( $\$ 4,500$ to $\$ 5,100$ ). When determining an institution's cost of attendance to be used in the EAG awarding formula, standard allowances of differing amounts are applied for students living on campus, students living with parents, and students living off campus to help offset personal expenses associated with attending college. To assist those students who are most likely to incur greater personal expenses, MHEC made a commitment to increase the standard allowances for students living with parents and students living off campus.;
4) Increase the Expected Family Contribution reached in the EA Grant program for academic year 2005-2006 to $\$ 15,911$ from $\$ 6,182$ in academic year 2004-2005;
5) Decrease the EA Grant waiting list at the time of initial awarding for academic year 20052006 to 1,502 from 7,246 in academic year 2004-2005; and,
6) Implement the Community College Access Initiative, which increased the percent of need used to calculate an award for a community college student receiving an EA grant from 35\% to $45 \%$; awards at other institutions were based on $35 \%$. This four year plan to incrementally increase the percent of need used in the Educational Assistance Grant program calculations was introduced as a process to provide more need-based aid to students attending a community college. Each year the percent of need was to be increased by 5\%, bringing the percent of need up from $45 \%$ in FY 2006 to $60 \%$ in FY 2009. OSFA was able to fully
implement this initiative in the second year as a result of the increased funding provided in the EEA program in FY 2007.

During the 2005 General Assembly, legislation passed that requires OSFA to implement a Distinguished Scholar Community College Transfer Program. The purpose of this program is to identify Maryland students who are attending Maryland community colleges and provide them with an incentive to continue their education at a Maryland 4 -year college or university. The program provides $\$ 3,000$ per year and awards are based on students having at least a 3.0 cumulative grade point average. Using funds from cancelled awards in the DS Program it was implemented in the 2005-2006 academic year and 50 students were funded for a total of $\$ 150,000$.

The William Donald Schaefer Scholarship program was also implemented in the 2005-2006 academic year. Ten awards were made to students who are planning to pursue careers in public service.

## Funding Initiatives in FY 2007

Funding for need-based aid increased again in FY 2007, nearly doubling funding from FY 2004 to FY 2007, from $\$ 42.4$ million to $\$ 83.2$ million. The increase over this three-year time frame has enabled OSFA to reach an additional 12,919 students, an increase of 49 percent. Increased need-based aid funding in FY 2007 enabled OSFA to award over 40,000 renewal and new GA Grants and EA Grants for academic year 2006-2007, up from approximately 37,000 in the prior year; increase the maximum award amount in the EA Grant program to the statutory maximum of $\$ 3,000$ and increase the percent of need used when calculating awards from 35 percent to 40 percent for students attending a four-year institution in Maryland; full implementation of the Community College Access Initiative which bases awards in the EA Grant program on 60 percent of need for community college students in Maryland; increase the Estimated Family Contribution reached in the EA Grant program for academic year 20062007 to $\$ 16,951$ from $\$ 15,911$ in academic year 2005-2006; decrease the EA Grant waiting list at the time of initial awarding for academic year 2006-2007 to 1,146 from 1,502 in academic year 20052006; maintain the $\$ 3$ million funding level for the Campus-Based EA Grant program; and, continue the $\$ 2$ million set-aside in the GA Grant program to continue awarding eligible students throughout the year.

The Part-Time Grant Program has seen an increase in funding of over 77\% since FY 2004, from $\$ 1.35$ million to $\$ 6$ million in FY 2007. The Graduate and Professional Scholarship Program has had an 87.5\% increase since FY 2004 from $\$ 187,312$ to $\$ 1.5$ million for FY 2007. The Jack F. Tolbert Memorial Student Grant program has seen only a minimal increase in funding; however, OSFA has been able to update program guidelines to allow for an increase in the maximum award from $\$ 300$ to $\$ 500$ annually.

An additional $\$ 1.1$ million was appropriated in the State Nursing Scholarship and Living Expenses Grant program for FY 2007. As a result, OSFA was able to award over 100 additional scholarships to students who sign a promissory note agreeing to work as a nurse in Maryland upon graduation.

## Significant Activities

OSFA continued to work over the last year to implement new initiatives, reduce program complexity, streamline programs, and create efficiencies. OSFA has implemented or continued the following:

- Community College Access Initiative: Initially implemented in FY 2006, this four year plan to incrementally increase the percent of need used in the Educational Assistance Grant program calculations was introduced as a process to provide more need-based aid to students attending a community college. Each year the percent of need was to be increased by $5 \%$, bringing the percent of need up from $45 \%$ in FY 2006 to $60 \%$ in FY 2009. OSFA was able to fully implement this initiative in the second year as a result of the increased funding provided in the EEA program in FY 2007.
- Decentralized Campus-Based EAG program: OSFA implemented the Campus-Based EAG program with the use of carry forward funds in FY 2004. OSFA successfully secured \$2 million base funding for this program in FY 2005. An additional $\$ 1$ million has been allocated for FY 2006 and FY 2007, bringing the total to $\$ 3$ million. This program assists needy students who due to extenuating circumstances may have missed application deadlines. These students could be first-generation college students, students from low-income families, or students lacking family support structures. Once a student receives a Campus-Based award, it is intended that with appropriate counseling from the institution's financial aid office, the student will become aware of financial aid deadlines and file the Free Application for Federal Student Aid (FAFSA) by the March 1 deadline. If this is done, the student's award will be renewed in the next academic year as an Educational Assistance Grant. In FY 2006 2,018 students received a Campus-Based award; 634 of the students received a traditional EAG in FY 2007. Students must be full-time and Pell eligible in order to receive the Campus-Based EAG. Institutions select recipients of the grant.
- Estimation of EAG Awards: OSFA continued the process to improve communication between OSFA and the financial aid offices and provide consistent information to all institutions for the estimation of awards. Each year in the beginning of January OSFA will provide the following information to all public and independent higher education institutions’ financial aid offices to assist with the awarding of EAGs:
- Expected Family Contribution (EFC) cut-off information of initial awards for the three prior years; and,
- Funding level for the program for the prior three years.

Each year, in the third to fourth week of January, once the Governor introduces the budget, OSFA will provide the following information to all public and independent higher education institutions' financial aid offices to assist with the awarding of EAGs:

- Information on the awarding formula used to calculate EAG awards;
- Student eligibility information; and,
- A conservative estimate of the EFC to be reached when awarding EAGs for the upcoming academic year.
- On-line billing rosters (Phase I): The first phase of on-line billing rosters has been implemented enabling institutions to download award rosters and billing rosters from a secure website for processing. Paper rosters have been eliminated for in-state two- and four-year institutions, making the process fully automated on the institutional side of the process. In addition, MHEC IT staff has created an Access database that enables institution staff to process the billing rosters in a partially automated way on their end. For institutions without IT staff able to automate the process on the side of the institution, this is a significant time saver in the processing of the rosters. The Access database, or the Institutional Submission Tool (IST), works for every school, regardless of their $3^{\text {rd }}$ party software financial aid system.
- On-line billing rosters (Phase II): Phase two of this project is the automation of OSFA's processing of awards. Software to implement this process internally has been delivered. Testing has begun and OSFA expects to complete implementation during FY 2007.
- Janet L. Hoffman Loan Assistance Repayment Program: To address the nurse faculty shortage, guideline changes were made to expand program eligibility requirements to include individuals working as nurse faculty members. Also, an additional $\$ 1$ million was put into the program to assist nurses, nurse faculty and teachers working in Title I Schools and those designated for improvement with paying off their school loans. In addition, during FY 2007, the awarding process was changed so that awards will be determined by an applicant's overall reported debt at the time of application, recipients will lock-in to an award level that contains set amounts, and funds will be distributed annually over a three year period as long as the recipient remains eligible and continues to submit the required annual employment, lender, and tax documentation by the September 30 deadline.
- State Nursing Scholarship and Living Expenses Grant: In FY 2006, legislative and guideline changes were made to enable a recipient to fulfill their service obligation as a nurse faculty member. Recent legislative and guideline changes were made to enable a recipient to fulfill their service obligation on a part-time basis and as a nurse faculty member. In addition, guideline changes were made that established a process by which an applicant may receive an award to attend an out-of-state institution if the applicant was accepted and deferred at an eligible Maryland institution due to lack of capacity.
- Implementation of the Distinguished Scholar Community College Transfer Scholarship: During the 2005 General Assembly, legislation passed that requires OSFA to implement a Distinguished Scholar Community College Transfer Program. The purpose of this program is to identify Maryland students who are attending Maryland community colleges and provide them with an incentive to continue their education at a Maryland 4-year college or university. The program provides $\$ 3,000$ per year and awards are based on students having at least a 3.0 cumulative grade point average. The program began in the 2005-2006 academic year and 50 students were funded for a total of $\$ 150,000$. In 2006-2007, funding increased to $\$ 300,000$ and 100 awards were made.
- Implementation of the William Donald Schaefer Scholarship Program: This scholarship program was implemented in the 2005-2006 academic year for students who intend to work in public service upon graduation. Ten awards are to be made each academic year. For the 2006-2007 academic year, there are 20 recipients of the award, 10 renewal and 10 new awardees.
- Optometry Tuition Reduction Program: OSFA recently began to administer this program, which provides tuition assistance to Maryland residents attending the Pennsylvania College of Optometry, through an interstate compact between the State of Maryland and the College. Five students in each class may receive up to $\$ 8,275$ each year. Students may renew awards up to three years and are required to work in Maryland one year for each year of assistance received.
- Creation of Automated Packaging Program for Developmental Disabilities Scholarship: In FY 2006, OSFA had an automated packaging system developed for the Developmental Disabilities Scholarship program. OSFA awards over 380 scholarships in this program each year, and automating the process significantly reduced staff time in making the awards than in a manual process.

## Additional Fiscal Year 2007 activities underway:

- On-Line award acceptance: OSFA began working on this initiative in FY 2005. When implemented it will enable a student to accept financial aid awards on-line and not require the mailing of the acceptance letter to the office. For those programs that require promissory notes, an individual will be able to print the promissory note from the website, complete it, and submit it to OSFA. OSFA has recently entered the testing phase of this initiative and hopes to begin using on-line award acceptance during the upcoming academic year.
- Implementation of the GEAR UP Scholarship: This program provides funding to full- or part-time students who have participated in an early intervention program funded under the Maryland "Gaining Early Awareness and Readiness for Undergraduate Programs" (GEAR UP) state grant between the 1999-2000 academic year and the 2005-2006 academic year. The purpose of the GEAR UP Program is to prepare and motivate low-income middle and high school students to participate and succeed in postsecondary education and to assist them in paying the expenses associated with college. OSFA received over 1,000 applications and made over 600 awards for the 2006-2007 academic year.
- Implementation of the Graduate Nursing Faculty Scholarship and Living Expenses Grant: The purpose of the Graduate Nursing Faculty Scholarship Program is to increase the number of qualified bedside nurses in Maryland hospitals through Statewide Initiatives administered by the Maryland Higher Education Commission (MHEC) on behalf of HSCRC. The Graduate Nursing Faculty Scholarship and Living Expenses Grant is one of the Statewide

Initiatives. During the 2006-2007 academic year, OSFA has made 15 awards to eligible students.

- Implementation of the Workforce Student Assistance Grant Program: This program consolidates seven of OSFA’s career/occupational scholarship programs. The Sharon Christa McAuliffe, Physical and Occupational Therapists, Distinguished Scholar Teacher, Child Care Provider, William Donald Schaefer, State Nursing, and Developmental Disabilities Scholarship programs were consolidated as a result of HB 988, which passed during the 2006 General Assembly session. Eligible majors and employment fields will be determined by an Advisory Council biennially and will address statewide and regional critical shortage areas in the workforce. The Workforce Shortage Grant program will be implemented in the 20072008 academic year.
- Implementation of the Veterans of the Afghanistan and Iraq Conflicts Scholarship Program: This program was created as a result of legislation passed during the 2006 General Assembly session in HB 3. This program is designed to provide financial assistance to United States armed forces personnel who served in the Afghanistan or Iraq Conflicts, and their sons, daughters, or spouses attending a Maryland postsecondary institution. The scholarship will be fully implemented in the 2007-2008 academic year. The annual award may not exceed 50\% of the equivalent annual tuition and mandatory fees of a resident undergraduate at a four-year public institution of higher education within the University System of Maryland, other than the University of Maryland University College and the University of Maryland, Baltimore, with the highest annual expenses for a full-time resident undergraduate.
- Legislative Scholarship reports on CD Rom to legislators: OSFA has refined this process and now provides templates to legislative staff members to use when looking up student information. Beginning in the 2007-2008 academic year, all legislators will be receiving information via CD Rom.
- Go For It Initiative: A newly forming partnership is developing with the Southern Regional Educational Board (SREB) to implement Maryland's Go For It initiative. The Maryland Go For It! initiative will assist the State with the development of a concerted outreach campaign to get a focused, branded message to middle school students about what to do to prepare for college and their career after high school. To disseminate the message, an outreach kit will be developed for non-profit organizations, community and faith-based, to use with the students they serve through their programs, such as before and after school programs or weekend programs. OSFA anticipates benefiting from other SREB Go Alliance states, such as Texas and Georgia, which have already implemented significant outreach initiatives. The use of logos, slogans, and characters from these states in the development of print media and other outreach efforts will assist Maryland in developing a cost-effective campaign targeted at its middle school students. Funding in the amount of \$100,000 was provided in the FY 2007 budget.
- On-line applications: OSFA has begun planning for on-line applications, which will enable a student to fill out a financial aid program application and submit it on-line.
- Further program automation: OSFA is working to further automate smaller financial aid programs that are currently using manual processes to issue awards.
- Development of New State Student Financial Aid System: In its FY 2007 budget, OSFA received $\$ 1.7$ million for a new State Student Financial Aid System. OSFA has hired a project manager and another staff member to help develop the RFP for the new system. It is anticipated that a contract will be awarded to a vendor by June 30, 2007 and that the system will go live in summer 2009.

# Maryland Financial Assistance Program Funding and Recipient Distribution by Postsecondary Institution 

This section of the Annual Report provides data on the distribution of funding and recipients by program for each postsecondary institution in Maryland. Sub-totals are provided by higher education segment and program category. Tables are compiled in the following order:

Table II. Summary of Financial Aid Funds and Recipients by Higher Education Segment and Program Category: FY 2006

Table III. State Financial Aid Funds FY 2006: Private Career Schools
Table IIIb. State Financial Aid Recipients FY 2006: Private Career Schools
Table IVa. State Financial Aid Funds FY 2006: 2-Year and 4-Year Independent Institutions
Table IVb. State Financial Aid Recipients FY 2006: 2-Year and 4-Year Independent Institutions

Table Va. State Financial Aid Funds FY 2006: Community Colleges and 4-Year Public Institutions

Table Vb. State Financial Aid Recipients FY 2006: Community Colleges and 4-Year Public Institutions
Table II. Summary of State Financial Aid Funds and Recipients
by Higher Education Segment and Program Category: FY 2006

## Appendix I

# Overview of State Financial Assistance Programs 

Need-based Aid Programs

## Educational Excellence Awards

The Educational Excellence Awards program is the State's largest need-based program. It has two components: the Educational Assistance Grant and the Guaranteed Access Grant.

The Educational Assistance Grant is targeted to low- to moderate-income families and is based on financial need. Financial need is based on the cost of the college the student attends (includes: tuition and fees, room and board, equipment, transportation, personal expenses), the Expected Family Contribution (based on income, family size, number of children attending college), other grant or scholarship awards, and the Federal Pell Grant (if any). Financial need is calculated as follows:

## Cost of Attendance

- Expected Family Contribution
- Applicable Other Grants and Scholarships (if any)
- Federal Pell Grant (if any)
$=$ Financial Need
The amount of the Educational Assistance Grant (EAG) is calculated by awarding a percentage of total financial need. New for the 2005-2006 academic year was that the type of institution determined the percentage of need. The percent of need for 2-year and 4-year independent institutions and 4-year public institutions was $35 \%$. The percent of need used in the calculation for community colleges was $45 \%$. The minimum EAG award is $\$ 400$ and the maximum award was $\$ 2,700$. The statutory maximum for this grant is $\$ 3,000$; however, until the FY 2007 year, funding had not been provided to increase awards to this level. A portion of the Educational Assistance Grant is now campus-based. These funds are given to a higher education institution for distribution to assist needy students who due to extenuating circumstances may have missed application deadlines. These students could be first-generation college students, students from low-income families, or students lacking support structures.

The Guaranteed Access Grant is for very low-income high school students and requires a 2.5 high school grade point average. The Guaranteed Access Grant covers $100 \%$ of the student need up to a maximum of \$13,800 for academic year 2005-2006.

A College Readiness Outreach program was established in statute in 2002 to allow ninth or tenth grade students to pre-qualify on the basis of financial need for a Guaranteed Access Grant. However, funding has not been provided to implement the program.

## Part-Time Grant

The Part-Time Grant provides up to $\$ 1,000$ for part-time, needy, degree-seeking, undergraduate students and students who are simultaneously enrolled in a secondary school and an institution of higher education. Funds are allocated to institutions of higher education for distribution based upon the number of undergraduate part-time students with financial need enrolled in degree-granting programs. Beginning in the 2006-2007 academic year, awards may range up to $\$ 1,500$ annually.

## Graduate and Professional Scholarship

The Graduate and Professional Scholarship provides up to $\$ 5,000$ to full-time and part-time graduate and professional students in nursing, pharmacy, dentistry, law, medicine, veterinary science, and social work. This program became decentralized beginning in academic year 2002-2003. Funds are allocated to eligible institutions that then select recipients.

## Legislative Programs

## Senatorial Scholarships

Each member of the State Senate may award \$34,500 in scholarships each year. Combined with continuing awards, annual funding per legislative district totals $\$ 138,000$. Individual awards range from $\$ 400$ to $\$ 2,000$ per year at approved Maryland postsecondary institutions. Students must demonstrate financial need. Awards can be used out-of-state under certain circumstances.

## Delegate Scholarships

Each member of the House of Delegates may award scholarships to students attending approved Maryland postsecondary institutions. The minimum award is $\$ 200$. The maximum award may not exceed the cost of tuition and fees at the highest University System of Maryland campus excluding UMUC and UMB (\$8,550 for academic year 2005-2006). Awards can be used out-of-state under certain circumstances.

## Merit-based Programs

## Distinguished Scholar Program

The Distinguished Scholar Program is designed to keep exceptionally talented students in Maryland. It provides 350 students an award of $\$ 3,000$ each year for up to four years. National Merit Scholarship and National Achievement Scholarship finalists are offered the scholarship if they attend
a Maryland college. Maryland high schools can nominate five juniors to audition in visual arts, instrumental music, vocal music, dance and drama. Individuals with a cumulative unweighted grade point average of at least a 3.7 may also apply. Awards are based on a ranking of applicants that combines grades and standardized test (SAT1, PSAT, or ACT) results.

## Distinguished Scholar Teacher Award

This program provides an additional award of \$3,000 per year to encourage recipients of the Distinguished Scholar award to teach in a Maryland public school. Recipients are required to teach one year for each year the scholarship is received.

## Distinguished Scholar Community College Transfer Program

During the 2005 General Assembly, legislation passed that requires the Office of Student Financial Assistance to implement a Distinguished Scholar Community College Transfer Program. The purpose of this program is to identify Maryland students who are attending Maryland community colleges and provide them with an incentive to continue their education at a Maryland 4-year college or university. The program provides $\$ 3,000$ per year and awards are based on students having at least a 3.0 cumulative grade point average.

## Career and Occupational Programs

## Hope Scholarship Program

In 2004, the Governor and the General Assembly approved a proposal to shift more funding to needbased aid. As a result, the Hope Scholarship Program ceased awarding new applicants. Currently, awards are being renewed in the Hope Scholarship Program. The 2006-2007 year is the last year of renewals in the Maryland Teacher Scholarship component and then the program will be completely phased out. The Hope Scholarship Program as originally established was comprised of four programs: Maryland Science and Technology Scholarship, Maryland Teacher Scholarship, Maryland HOPE Scholarship, and HOPE for Nontraditional Students - Community College Transfer Scholarship.

## Sharon Christa McAuliffe Memorial Teacher Education Award

The Sharon Christa McAuliffe Memorial Teacher Education Award provides assistance to students pursuing a career in public school teaching in an area of critical shortage. Students must have a 3.0 grade point average and have completed at least 60 credit hours. The maximum award may not exceed the amount of tuition, mandatory fees, and room and board for a student at the University System of Maryland campus with the highest cost of attendance, excluding UMUC and UMB ( $\$ 17,000$ for academic year 2005-2006). Recipients are required to work in Maryland one year for each year of assistance received.

## Child Care Provider

The Child Care Provider Program provides scholarships to students pursuing a career in child care services. Awards are provided for tuition up to $\$ 2,000$ per year and recipients are required to provide childcare services in Maryland one year for each year a grant is received.

## Developmental Disabilities, Mental Health, Child Welfare, and Juvenile Justice Workforce Tuition

 Assistance ProgramThis program provides funds to students pursuing an undergraduate or graduate degree in a human service field. Students will be required to work at an eligible employment site in a human services occupation for a specified number of hours dependent on the total amount of funds received. Award amounts may be up to $\$ 3,000$ annually.

## Nursing Scholarship

The Nursing Scholarship provides funds to students pursuing a career in nursing. Awards are provided for tuition and mandatory fees up to $\$ 3,000$ annually and recipients are required to serve in a nursing shortage area in Maryland one year for each year a grant is received. A living expenses grant of up to $\$ 3,000$ annually is available based on need. Nursing students enrolled in a program that includes mandatory summer academic sessions may be awarded the amount of tuition and fees not to exceed \$4,500 per calendar year.

## Physical and Occupational Therapists and Assistants Scholarship Program

The Physical and Occupational Therapy Program provides scholarships to students pursuing licensure as a physical therapist, occupational therapist, physical therapy assistant, or occupational therapy assistant. Awards are provided for tuition and fees of up to $\$ 2,000$ annually and recipients are required to work in certain physical or occupational therapy fields for one year for each year a grant is received.

## Workforce Shortage Student Assistance Grant Program

This program consolidates seven of OSFA's career/occupational scholarship programs. The Sharon Christa McAuliffe, Physical and Occupational Therapists, Distinguished Scholar Teacher, Child Care Provider, William Donald Schaefer, State Nursing and Developmental Disabilities Scholarship programs were consolidated as a result of HB 988, which passed during the 2006 General Assembly session. An Advisory Council has been appointed to look at workforce shortage areas biennially. Students will be awarded set award amounts and service obligations will be standard among the shortage areas. This program will be implemented in the 2006-2007 academic year.

Charles W. Riley Fire and Emergency Medical Services Tuition Reimbursement Program (formerly Firefighters, Ambulance and Rescue Squad Member Tuition Reimbursement Program)

The Charles W. Riley Fire and Emergency Medical Services Tuition Reimbursement Program provides tuition reimbursement for firefighters, ambulance and rescue squad members who serve a Maryland community while taking college courses and continue to serve for another year after completing the courses. The courses must be in fire service technology or emergency medical technology. Awards may be up to \$6,500 for academic year 2005-2006.

## Janet L. Hoffman Loan Assistance Repayment Program (LARP)

The Janet L. Hoffman Loan Assistance Repayment Program (LARP) provides awards to individuals working in specified fields to assist in the repayment of educational loan debt. The LARP General program has provided up to $\$ 7,500$ annually for lawyers, nurses, nurse faculty, physical and occupational therapists, social workers, speech pathologists, and teachers in Title I Schools or those designated for improvement who work for Maryland State, local government or nonprofit agencies. Beginning with award year 2006-2007, awards will be provided up to $\$ 10,000$ annually.

## Loan Assistance Repayment Program for Primary Care Physicians and Dentists (LARP-PCS and MDC-LARP)

The Loan Assistance Repayment Program Primary Care Services (LARP-PCS) provides between $\$ 25,000$ and $\$ 30,000$ annually for primary care physicians and primary care medical residents who serve as full-time primary care physicians in underserved areas in Maryland for two to four years. The Maryland Dent-Care Loan Assistance Repayment Program (MDC-LARP) provides \$23,000 annually to dentists who maintain at least $30 \%$ of their patient population as Maryland Medical Assistance Program recipients.

## William Donald Schaefer Scholarship Program

The William Donald Schaefer Scholarship Program provides opportunities for young people to attend institutions of higher education so that they may prepare for and pursue careers in public service. Students who perform well academically and agree to use their training in public service qualify for scholarship assistance. The award amount is equal to the cost of tuition and fees but did not exceed $\$ 8,550$ for the 2005-2006 academic year.

## Teach for the Health of It

Teach for the Health of It is a scholarship program with two components. The first component is designed to place Master's prepared Registered Nurses into nursing faculty positions as soon as possible, and the second component is to offset the Registered Nurse vacancies caused by the healthcare employer's release of nurses to become faculty members. Scholarships of up to $\$ 10,000$
are available for Master's prepared Registered Nurses to obtain any additional credentials necessary to become nursing program faculty members, as well as students that are enrolled in nursing education programs.

## Optometry Tuition Reduction Program

This program provides tuition assistance to Maryland residents attending the Pennsylvania College of Optometry, through an interstate compact between the State of Maryland and the College. Five students in each class may receive up to $\$ 8,275$ each year. Students may renew awards up to three years and are required to work in Maryland one year for each year of assistance received.

## Graduate Nursing Faculty Scholarship and Living Expenses Grant

The purpose of the Graduate Nursing Faculty Scholarship Program is to increase the number of qualified bedside nurses in Maryland hospitals through Statewide Initiatives administered by the Maryland Higher Education Commission (MHEC) on behalf of HSCRC. The Graduate Nursing Faculty Scholarship and Living Expenses Grant is one of the Statewide Initiatives. The program was implemented during the 2006-2007 academic year, when OSFA awarded 15 eligible students. Students may receive up to $\$ 13,000$ per year in the scholarship portion of the program and up to $\$ 25,000$ per year in the living expenses portion of the program.

## Unique Population Programs

## Jack F. Tolbert Memorial Student Grant Program (Tolbert Grant)

The Tolbert Grant Program provides awards of up to $\$ 500$ to students attending a private career school. Statutory award maximum is $\$ 500$ beginning in 2006-2007. Awards are made based on need and students must be enrolled in at least 18 clock hours per week.

## Edward T. Conroy Memorial Scholarship Program

The Edward T. Conroy Memorial Scholarship Program provides up to the full cost of tuition and fees based on the University System of Maryland campus with the highest cost of attendance excluding UMUC and UMB (\$8,650 for 2006-2007). To be eligible a student must be:

- the son or daughter of a member of the United States Armed Forces who died as a result of military service or who suffered a service connected 100 percent permanent disability as result of military service;
- a veteran who suffers a service-connected disability of 25 percent or greater, as a result of military service, and has exhausted or is no longer eligible for federal veterans' educational benefits;
- the son, daughter, or surviving spouse of a victim of the September 11, 2001 terrorist attacks who died as a result of the attacks on the World Trade Center in New York City, the attack on the Pentagon in Virginia, or the crash of United Airlines Flight 93 in Pennsylvania;
- a POW/MIA of the Vietnam Conflict or his/her son or daughter;
- the son, daughter or surviving spouse (who has not remarried) of a state or local public safety employee or volunteer who died in the line of duty or who was 100 percent disabled in the line of duty;
- or a State or local public safety employee or volunteer who was 100 percent disabled in the line of duty.

## Tuition Waiver for Foster Care Recipients

The Tuition Waiver for Foster Care Recipients provides tuition waivers for those students residing in a foster care home at the time of their high school graduation or upon completion of their GED or those residing in a foster care home on their $14^{\text {th }}$ birthday who were adopted out of foster care after their $14^{\text {th }}$ birthday. The Department of Human Resources confirms student eligibility for the waiver. All other forms of grant or scholarship financial assistance must be applied before the waiver (Pell, State financial aid programs, etc). Students must attend a public institution to be eligible.

## GEAR UP Scholarship

The GEAR UP Scholarship Program is to provide funding to full- or part-time students who have participated in an early intervention program funded under the Maryland "Gaining Early Awareness and Readiness for Undergraduate Programs" (GEAR UP) state grant between the 1999-2000 academic year and the 2005-2006 academic year. The purpose of the GEAR UP Program is to prepare and motivate low-income middle-to-high school students to participate and succeed in postsecondary education and to assist them in paying the expenses associated with college. The overall goal is to increase the percentage of students, especially African-American students, enrolling in accredited two- or four-year colleges or universities following high school graduation. Students must apply each year for the scholarship.

## Veterans of the Afghanistan and Iraq Conflicts Scholarship

This program was created as a result of legislation passed during the 2006 General Assembly session in HB 3. This program is designed to provide financial assistance to United States armed forces
personnel who served in the Afghanistan or Iraq Conflicts, and their sons, daughters, or spouses attending a Maryland postsecondary institution. The scholarship will be fully implemented in the 2007-2008 academic year. The annual award may not exceed $50 \%$ of the equivalent annual tuition and mandatory fees of a resident undergraduate at a four-year public institution of higher education within the University System of Maryland, other than the University of Maryland University College and the University of Maryland, Baltimore, with the highest annual expenses for a full-time resident undergraduate.
